## Beztak Named One of the Country's Largest Apartment Firms

National Multifamily Housing Council Releases 2021 List of Nation's Top 50 Owners, Managers, Top 25 Builders, Developers and Top 10 Syndicators

WASHINGTON, D.C. April 14, 2021 – Beztak earned national recognition today by making the National Multifamily Housing Council's (NMHC) 2021 NMHC 50, the annual ranking of the nation's largest apartment owners, managers, developers, builders and syndicators. Beztak is the 45<sup>th</sup> largest apartment Manager in the country, with 36,187 units managed.

“As Beztak continues to expand our growing footprint, our mission to enrich the lives of our residents remains the same,” said Chief Executive Officer, Sam Beznos. “Beztak's inclusion on the Top Managers List for the second consecutive year is a distinct honor to our team. In a year of unprecedented circumstances, Beztak was not only able to continue the momentum from our placement on 2020's Top Managers List, but expand our portfolio for higher placement in 2021, and we remain highly motivated to exceed the expectations we set as a top development, construction, and management company.”

For more than 60 years, Beztak has developed, built, managed and invested in commercial, industrial and luxury residential and senior living real estate throughout the United States. Beztak currently manages close to 200 market rate properties or 36,000 apartments, throughout 16 states and 60 markets nationwide.

This year marks the 32<sup>nd</sup> edition of the NMHC Top 50 lists. NMHC partners with Kingsley Associates, a leading real estate research and consulting firm for the NMHC 50's research and analysis. All apartment owners, managers, developers, builders and syndicators are invited to answer a survey questionnaire that asks about their prior year activities. Apartment owners, managers and syndicators are ranked based on their portfolio holdings (either owned or managed) as of January 1, 2021, while developers and builders are ranked based on the number of units started in 2020.
