### FOR IMMEDIATE RELEASE

#### BEZTAK RECOGNIZED AS A WINNER OF COMPARABLY'S BEST PLACES TO WORK AWARD

**Farmington Hills, MI. October 5, 2022** – Beztak, one of the country's leading providers of real estate development, construction, investment, and property management services, is proud to announce that the company has received recognition from Comparably as a Best Place to Work Award winner, in the "Happiness" category. Beztak received the award alongside companies such as HubSpot, Adobe, IBM, Experian, Google, Microsoft, and Samsung.

Comparably Awards highlight the best CEOs and places to work by those who know best – employees. The Awards are based on sentiment feedback provided anonymously within a 12-month period by employees about their workplace, and span 16 different topics, from compensation, to work-life balance, career growth, and leadership.

"Our data shows that the happiest employees are often those who feel valued by their employers through a variety of factors like competitive compensation, clear goals, work-life balance, and a general excitement working for their organizations," said Comparably co-founder/CEO Jason Nazar. "The top-rated companies on our annual list succeed at meeting the needs of their workers across these very important factors."

Likewise, at the core of Beztak's success is the shared understanding that ultimately, the Company is driven by and for people. For example, Beztak emphasizes promotion from within, diversity, open communication, and leadership training programs. By leveraging more than six decades of expertise in designing, developing, and managing real estate properties, Beztak is able to promote a culture with a focus on personal development and balance.

"Our single biggest asset is our people, and we've worked hard to cultivate a company culture that attracts and retains associates that are talented and passionate about the company," said Sam Beznos, Beztak CEO. "As we continue to see Beztak's immense evolution, we continue with the principle that a culture of
